"THE BIG EAR"

The Emblem is a dynamic, forward-looking space age structure, stylized from the two giant radio telescopes located in West Virginia.

The telescope has been appropriately nicknamed "THE BIG EAR". The single star above, being studied by the telescope contains the numerals 35 to identify West Virginia as the 35th star in the United States Flag and the 35th state to be admitted to the Union.

VAN HIGH SCHOOL

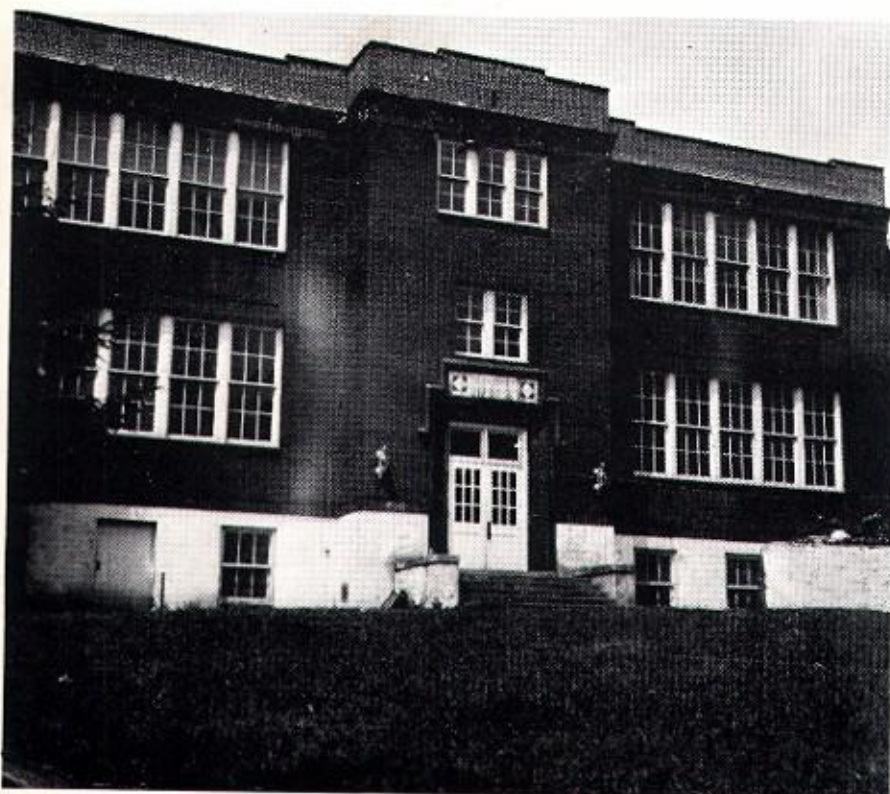

Soon after the turn of this century upon seeing the needs of better educational facilities for their children, the citizens of Crook District began discussing the possibility of erecting a district high school. In May, 1923 the Crook District Board of Education purchased and obtained a deed to the real estate where Van High School is now located. The land acquired consisted of three acres and cost \$5000.00.

In 1924, after a special school bond levy was passed for the erection of a junior high school, the Board of Education hired an architect to ascertain the cost of erecting a four-room, two-story, brick building. In June, 1924 work was begun on the above mentioned structure which cost approximately \$17,000.00; consequently, the building was ready for occupancy for the school year 1926-27, and Mr. John Tanner was appointed principal.

Mr. W. E. Doss delivered the Graduation Address to the first Ninth Grade Class which graduated May 21, 1927, and the succeeding years brought about the addition of the tenth, eleventh, and twelfth grades. When the County Unit System went into effect the name of the school was changed to Van High School.

The first four year graduating class, school year 1929-30, is pictured above. The faculty for that year consisted of John E. Wolfe, Principal; Lucille Fleger, L. O. Haynes, Wanda Kennedy, Alice Lewis and Melvin Roberts.

Much of the above information was furnished by Mr. B. C. Dickens, Mr. W. E. Doss and Mr. P. H. Dickens. The Staff thanks these persons and apologizes for any errors it might have made in recording the above data.

The State Flower

The *Rhododendron maximum*, or "big laurel," was designated the official floral emblem of the Mountain State at the suggestion of Governor Albert Blankenslee White on January 23, 1903. It is a shrub of the heath family, and is distinctive for its large evergreen leaves and delicately impressive pale pink or white blossoms mottled with either red or yellow flecks. The "big laurel" is a "mountainer" through and through, preferring as it does the upland climate of the Appalachian and Allegheny ranges.

The Great Seal and Coat-of-Arms

The second resolution adopted by the Legislature of West Virginia, in June 1863, provided that a committee be appointed to design an emblem for the state. The committee made a report September 23, 1863, based on suggestions and designs of the Honorable Joseph H. Diss Debar of Doddridge County.

The motto "Montani Semper Liberi" means Mountaineers are Always Free. The farmer and the miner indicate the importance of these occupations. The two hunter's rifles crossed and surmounted at the place of contact by the Phrygian Cap, or cap of liberty, indicate that our Liberty and Freedom were won and will be maintained by force of arms.

The reverse of the Great Seal was adopted as the Coat-of-Arms of the State.

THE STATE FLAG

The West Virginia State Flag was adopted by the Legislature on March 7, 1929. Before this time, West Virginia had been represented by several flags which had proved impractical.

Prominently displayed on the pure white field is the Coat of Arms. Across the top, lettered on a ribbon, is the constitutional designation-- "State of West Virginia." The white field is bordered on four sides by a strip of blue.

History of Boone County

Boone County was formed in 1847 from parts of Logan, Cabell, and Kanawha counties. It was named after the famous woodsman and hunter, Daniel Boone.

The County has an area of 506 square miles. It was in Boone County that West Virginia's vast coal reserves were discovered more than 200 years ago. Coal mining has now taken the place of timbering, with the natural gas industry second to coal. There is also considerable interest in agriculture in the county.

Boone County

Centennial Queens

Miss Marian Coleman was selected to reign as MISS BOONE COUNTY in the West Virginia Centennial Queen Celebration Contest held November 24 at Madison, West Virginia.

Miss Coleman, a graduate of the 1962 Van High School class is now attending Wesleyan College at Buckhannon, West Virginia.

Although Marian is now one of the state finalists, she reigns as Miss Boone County for 100 years. She is quoted as saying, "I hope to be here to crown the next Miss Boone County in the year 2063."

Miss Betsy Evelyn Slone a graduate of the Van High School 1959 Class was first place runnerup November 24 and designated as a PRINCESS in the West Virginia Centennial Celebration. Betsy graduated from Morris Harvey College, Charleston, West Virginia, in 1962 and is now a teacher at Wharton Grade School.

Miss Joan Wright (Senior) represented Boone County at Huntington, November 10, 1962 in the second annual Tobacco Festival Queen's Contest, which was sponsored by the Cooperative Extension Service of West Virginia.

The Cardinal

The Cardinal was designated the state bird by a legislative committee of five on June 18, 1949. The Cardinal belongs to the Finch family. It is a Grosbeak, meaning "great beak." It was named Cardinal for its color. The Cardinal doesn't migrate in the winter time. They are to be found all over the southern half of the United States. The Cardinal is a song bird with a melody almost like the nightingale and is protected by law, as it is against West Virginia laws to kill song birds. It was chosen as the official bird to represent our state.

CONGRATULATIONS TO THE CLASS OF "63"

THE MOON... and beyond!

Bright, new horizons await today's students . . . new technologies . . . new medicines . . . even the moon and whatever lies beyond.

How far today's students go in this space age depends partly on their imagination but primarily on their training. Conquering new horizons will demand more of today's graduates — more knowledge, more skills, more training and more specialization.

Our Free Enterprise system, with its high living standards, gives everyone an opportunity to "shoot for the moon" in any field. Whether or not our target is reached depends on how well trained we are to launch ourselves.

As Time Goes By

"WEST VIRGINIA"

In eighteen-hundred sixty-three,
On June twentieth the history
Of West Virginia got its start
When from Virginia it drew apart.
Since then events have taken place,
Many hardships we've had to face
That's brought our state along the way
And made it what it is today.

I've seen the sands beside the sea,
But none of these will do for me;
And no matter where I ever roam
This state will always be my home.
Hills that in the summer seem
To wear a carpet of dark green,
Turn to red and gold in fall
Just before snow covers all.

One-hundred years ago that day,
Our state started on its way;
Since that time it has become
A place of work and hope and fun.
As time goes by we hope to see
Our state grow and get to be
A better place to work and play.
For this we hope--For this we pray!
